

Vision, Goals & Objectives

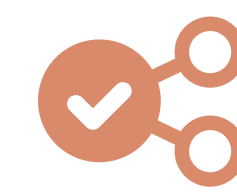

VISION

MVP is committed to a safe, connected, and efficient transportation system that fosters reliable and accessible options for all modes of travel, supports the economy and environment, and promotes healthy communities.

With community input, MVP identified seven goals that can be used to guide investments in our transportation infrastructure.

GOALS

LAND USE AND CONNECTIVITY

Ensure transportation improvements align with local land use patterns and connect housing to employment

SAFETY

Improve transportation safety for all modes (driving, walking, biking, etc.)

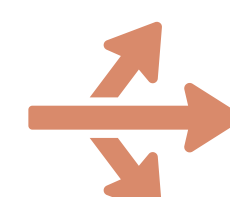

LEVERAGE FUNDING

Leverage all available funding resources (local, state, federal, Tribal)

MAINTENANCE

Maintain the system in a state of good repair

PROVIDE TRANSPORTATION OPTIONS

Create opportunities for more diverse transportation options (such as transit or multi-modal transportation options)

IMPROVE MOBILITY

Shorten commute times and improve mobility

TRANSPORTATION RESILIENCY

Build a resilient transportation network
